

COMP 3711  
Lab 3  
September 22, October 1

***Lab Exercise***

1. The following table contains the eight proposed analysis classes for the vehicle rental system. Fill in the description for each class and the class responsibilities
2. Construct a UML class diagram that shows all 8 classes with the relationships between them and the multiplicities of the relationships. Name the relationships where appropriate.

Class Name	Description of Class	Class Responsibilities
Award Program		
Customer		
Customer Profile		
Protection Product		
Rental Location		

Reservation		
Vehicle		
Vehicle Inventory		

***Marking Guide for the Lab Exercise***

Category	Maximum	Mark
Descriptions	2	
Responsibilities	3	
Relationships	3	
Multiplicities	2	
Total	10
