

Points and Scoring

For purposes of the competition, the following scoring equivalencies will be used.

	Number Missions	Available Points
Nano Quest Missions:	10	630
Power Missions	13	640
Total	23	1270

Points Deductions

Five (5) points are deducted for each rescue. In no case will a teams score fall below zero.

Mission Completed

The number of missions completed is counted at the end of the match, based on the condition of the field at that time.

RCX and NXT Points

RCX robots earn extra points due to the fact that they require more development to be equally accurate in navigation. The following bonuses will be applied to RCX scores:

- Every 5 raw points up to 200 are worth 8 points.
- Raw scores from 205 to 650 get 60 points added.
- Raw scores above 650 get 40 points added.
- Maximum score is never greater than 1270.
