

COMP 3711  
Lab 5  
October 20, 22

***Lab Exercise***

1. In Lab 4 you have created a Sequence diagram for reserveVehicle. In this lab, examine the Rational Rose model that is posted for this lab, ReserveVehicleLab5.mdl. Your deliverable at the end of this lab is to produce a Design Class diagram.
2. Study carefully the **two** sequence diagrams given in the Rational Rose model and **modify** the given “Main” class diagram to reflect what is shown on the sequence diagrams. Be sure to include (new) classes, operations and associations in your modifications to complete your **Design Class** diagram.
3. Try to understand what is going on.

***Marking Guide for the Lab Exercise***

Category	Maximum	Mark
Classes on class diagram	3	
Methods on class diagram	3	
Associations on class diagram	3	
Knowledge testing question	1	
Total	10
