

Test Yourself! – TCP/IP Knowledge Answers

Below are the answers to the TCP/IP “Test Yourself!” quiz.

We recommend that students be able to score 70% or higher (42 or more correct out of 60 questions) before enrolling the following courses:

Security 502 – Firewalls, Perimeter Protection, and VPNs

Security 503 – Intrusion Detection In-Depth

TCP/IP for Firewalls and Intrusion Detection (Day 1 of the Security 502 and Security 503 courses)

While this quiz alone cannot completely measure a student’s readiness, it should be used as a guide to estimate your preparedness and help you get the most out of your SANS course.

If you score less than 70% you may wish to consider additional self-preparation before class or taking a more introductory course, such as SANS Security Essentials.
