├─────────────────────────────┤
│ +Thread()                   │  Creates a default thread.
│ +Thread(task: Runnable)     │  Creates a thread for a specified task.
│ +start(): void              │  Starts the thread that causes the run() method to be invoked by the JVM.
│ +isAlive(): boolean         │  Tests whether the thread is currently running.
│ +setPriority(p: int): void  │  Sets priority p (ranging from 1 to 10) for this thread.
│ +join(): void               │  Waits for this thread to finish.
│ +sleep(millis: long): void  │  Puts the runnable object to sleep for a specified time in milliseconds.
│ +yield(): void              │  Causes this thread to temporarily pause and allow other threads to execute.
│ +interrupt(): void          │  Interrupts this thread.
