Final Presentation Format

Date:

Start:
End:

Each time will have **45 minutes** to make their presentation. The content will be centered on technical summaries and a system diagram is required.

Each team member will be required to summarize the following:

- All the defensive activities they were engaged in and tasks that they actively participated on.

- All the attacking activities they were engaged in and tasks that they actively participated on.

- The tools that were used in the defensive and attacking activities.

- Present summarized data from IDS logs, firewall logs, system log files, etc., as part of their presentation.

- All the lessons learned for this "war games" exercise.

- Recommendations for both defense and attacks.

The class will then be allowed to ask questions to the whole team.
